**LETTER OF DEFICIENCY**  
WD WQE 03-01  
April 7, 2003

Attn: Rick Chellman, Chairman  
Board of Selectmen

Re: Tuftonboro Landfill Closure  
RSA 485-A:17 Site Specific Permit #WPS-6223

Dear Mr. Chellman:

On March 25, 2003, personnel from the Department of Environmental Services ("DES") conducted an inspection on the subject property. The purpose of this inspection was to determine compliance with RSA 485-A:17 and applicable rules promulgated pursuant thereto. During the inspection, the following deficiencies were documented:

1. The borrow pit and contiguous areas to the east, northeast and north, had not been temporarily loamed, seeded and mulched/anchored as required by the plans approved under Site Specific Permit #WPS-6223 ("Plans").
2. Widespread erosion had occurred in the disturbed area mentioned in Deficiency No. 1.
3. The existing silt fence had not been properly maintained; sections of it had either fallen down or become separated.

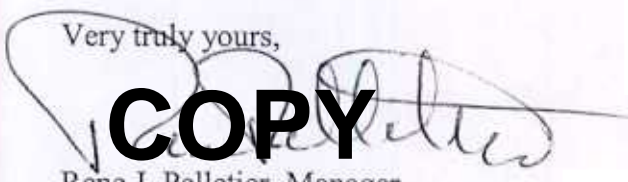

DES believes that the cited deficiencies can be corrected by:

1. Installing additional silt fence proportional to the size of the unstabilized area within 3 days of the receipt of this letter.
2. Repairing the existing silt fence within 3 days of the receipt of this letter.
3. Submitting a written schedule for stabilization of the entire site to DES by April 30, 2003.

In the event compliance cannot be achieved with this period, DES may order you to take such remedial measures as may be necessary. Failure to comply with such an order may result in enforcement action by DES under RSA 485-A:22. In addition, DES personnel may conduct another inspection at a later date to determine whether you have come into and are maintaining full compliance with the applicable statute and rules.

Should you have any questions regarding this letter, please contact Denise Frappier at 466-5910.

Very truly yours,

  
Rene J. Pelletier, Manager  
Land Resources Management Program
